Fogarty Global Health Training Program
A consortium of Harvard, Boston University, Northwestern, and University of New Mexico

HBNU Program Information for Applicants
July 2018
The HBNU Consortium, lead by 4 academic research institutions, has strong partnerships with low and middle income countries (LMICs) throughout Africa and Asia.

- Harvard University, Harvard TH Chan School of Public Health, Harvard Global Health Institute
- Boston University, School of Public Health, Center for Global Health and Development
- Northwestern University, Center for Global Health, Feinberg School of Medicine
- University of New Mexico, School of Medicine, Center for Global Health

The partner LMIC research sites are 18 well qualified institutions in 13 countries across Africa and Asia:

- Botswana-Harvard AIDS Institute Partnership, Botswana
- International Centre for Diarrheal Disease Research, Bangladesh
- Addis Continental Institute of Public Health, Ethiopia
- University of Ghana, Ghana
- Lata Medical Research Foundation, India
- Public Health Foundation of India, India
- Center for Global Health Research, Kenya
- University of Sciences, Techniques and Technologies of Bamako, Mali
- University of Jos, Nigeria
- University of Ibadan, Nigeria
- University of Lagos, Nigeria
- University of Global Health Equity, Rwanda
- University of Cape Town, South Africa
- University of Kwazulu-Natal, South Africa
- University of Witwatersrand, South Africa
- Muhimbili University of Health and Allied Sciences, Tanzania
- Mahidol University, Thailand
- Zambia Center for Applied Health Research, Zambia

The goal of HBNU is to provide trainees with integrated training and capacity building by experienced mentorship to address the complex health issues in LMIC regions. Ultimately, this program will advance the capacity of partner sites to be global health leaders.
Targeted Applicants

The HBNU Program will seek a diverse and qualified cohort of pre and postdoctoral candidates from global health and allied fields across all of the U.S. and LMIC partnering institutions.

Each year the program will select the following trainees who will be fully funded by the program:
- 4-5 postdoctoral LMIC trainees
- 4-5 postdoctoral U.S. trainees
- 4-5 predoctoral U.S. trainees

Additionally, the program will select 4-5 LMIC based trainees who will qualify for:
- All instructional components of the Program
- Mentoring
- Seed research funds from the program

**Predoctoral Applicants**
Must be U.S. citizens or permanent U.S. residents with advanced standing in global health related graduate programs.

**Postdoctoral Applicants**
Must be (a) U.S. citizens or permanent U.S. residents (U.S. trainees) or (b) citizens of countries with sites participating in the program (LMIC trainees) with an advanced doctoral degree in a global health related field.

**Additional LMIC applicants**
Must be a citizen of the LMIC country in which they are proposing to conduct research.
Program Expectations

- Once accepted to the HBNU Program, fellows are expected to spend 12 months in training (at least 11 months at proposed site)
- Fully funded fellows are expected to pursue their research training on a full time schedule (40 hrs/week)
- Fellows will work on research project while contributing to the research productivity of the site and education of their peers and other fellows
- Fellows are expected to work within the research areas agreed upon between themselves and their mentor
- Fellows must abide by ethics rules and regulations and will regularly consult with mentors before making any changes to their project
- Fellows are expected to participate in all Fogarty sponsored training or information sessions
- Any publications produced by fellows during their fellowship year, must acknowledge the HBNU Consortium and Fogarty International Center as well as other NIH co-funders
- Fellows agree to be “tracked” by the HBNU Consortium by completing surveys, monthly progress reports, and attending monthly seminars
- Fellows must also complete 4 short reports to HBNU that summarize progress and activities on a quarterly basis
